The diagram illustrates a user management interface. On the left, a section titled "Users" contains a list of five users, each represented by a colored circle (green, green, green, green, red) and a horizontal line. The first user is labeled "user x". A modal window is open over the first user, titled "user x". It contains three options: "Edit User" with a pencil icon, "Accessibilities" with a person icon, and "Delete/Suspend" with a large "X" icon.
